

## Sequoia Launch Series 33 – Diversified Basket of Global Investment Funds and Multi-Asset Index

A 4 year, 100% geared exposure to a basket of global funds, managed by some of the worlds largest and oldest asset managers with an **interest rate of only 1.99% p.a.**

The objective of the Units in Sequoia Launch Series 33 is to deliver positive returns to investors regardless of market conditions over a 4 year period. The Units aim to achieve this by offering leveraged exposure to a diversified basket of global investment funds and an index with various investment styles including:

- Global Fixed Income;
- Global Equity Absolute Return;
- UK Equity Absolute Return;
- Diversified Multi-Asset Long/Short

The Units also offer Investors regular distribution potential with the ability to pay annual uncapped Performance Coupons based on the full leveraged investment amount.

**Chart 1: Strategy Value Historical Simulation**

Investors should note that past performance is not a reliable indicator of future performance. Future volatility and returns may vary. The Issuer has included historical simulations to show how the Strategy Value would have performed in previous years. This historical simulation has been shown only for approximately the last 4 years as this is the longest time during which all Underlying's have been simultaneously in existence. This historical simulation is shown for educational purposes only and is not indicative of the future performance of the Units.

## Old Mutual Global Equity Absolute Return Fund

**Fund Size: USD 8.94bn**

**Inception Date: November 2011**

Old Mutual was established in 1845 and manages over USD249bn of assets under management globally.

Old Mutual Global Investors Series PLC – Global Equity Absolute Return Fund is an open-end fund incorporated in Ireland. The Fund aims to deliver an absolute return by investing in a market neutral portfolio of actively traded large capitalization global equities. The Absolute Return Fund is managed using highly developed proprietary systematic techniques that exploit short term anomalies.

*Past performance is not a reliable indicator of future performance. Future volatility and returns may vary.*

## Henderson Gartmore Fund United Kingdom Absolute Return

**Fund Size: GBP 3.58bn**

**Inception Date: April 2010**

Henderson Global Investors was established in 1934 and is one of the largest investment managers in Europe with over GBP103bn in assets under management globally.

Henderson Gartmore Fund – United Kingdom Absolute Return is an open-end Fund incorporated in Luxembourg. The Fund's objective is to achieve a long-term return. The Fund invests in companies having registered office in the United Kingdom and also in companies owning companies with registered offices in the United Kingdom. The return will be a combination of capital and income return.

*Past performance is not a reliable indicator of future performance. Future volatility and returns may vary.*

## PIMCO Income Fund – Global Investor Series Plc – E Class – Accumulation Income

**Fund Size: USD 43.9bn**

**Inception Date: November 2011**

PIMCO is a global investment management firm with a singular focus on preserving and enhancing investors' assets. PIMCO was founded in 1971, in California, USA, and currently manages \$US1.61 trillion.

The primary investment objective of the PIMCO Income Fund – Global Investor Series Plc – E Class – Accumulation Income is to seek high current income consistent with prudent investment management. Long-term capital appreciation is a secondary objective. The Income Fund is a portfolio that is actively managed and utilises a broad range of fixed income securities to maximise current income while maintaining a relatively low risk profile, with a secondary goal of capital appreciation.

*Past performance is not a reliable indicator of future performance. Future volatility and returns may vary.*

## The Jupiter Global Fund – Jupiter Dynamic Bond

**Fund Size: EUR 9.33bn**

**Inception Date: May 2013**

Jupiter was established in 1985 and has approximately GBP40.5bn in assets under management globally.

Jupiter JGF – Dynamic Bond is an open-end fund incorporated in Luxembourg. The Fund aims to achieve a high income with the prospect of capital growth from a portfolio of investments in global fixed-interest securities. The Fund will invest in higher yielding assets, high yield bonds, investment-grade bonds, government bonds, preferred shares and convertible bonds.

*Past performance is not a reliable indicator of future performance. Future volatility and returns may vary.*

## BNP Paribas Multi-Asset Diversified vol 4 EUR Future Index

Fund Size: EUR 2.75bn

Inception Date: October 2012

The BNP Paribas Multi-Asset Diversified vol 4 EUR Future Index offers higher returns with lower volatility thanks to a wide universe of underlyings and a dynamic asset allocation, with a Risk control mechanism (individual and global) to maintain volatility around 4%.

*Past performance is not a reliable indicator of future performance. Future volatility and returns may vary.*

## Key risks

- Your return is affected by the performance of the Reference Basket. There is no guarantee that the Reference Basket will perform well. If the Reference Basket performs negatively during the Investment Term you could lose some or all of your invested capital.
- The Units for Series 33 have varying levels of exposure to the Reference Basket depending on its volatility due to the variable Participation Rate. It operates by varying the exposure that the Units will have to the Reference Basket depending on the Realised Volatility of the Reference Basket and the Target Volatility. There is the risk that the Participation Rate could drop to significantly below 100% during the Investment Term in which case Investors will not gain the full benefits of an increase of the value of the Reference Asset.
- Investors in Series 33 should note that there is a lag in measuring the Realised Volatility of the Reference Asset. This means that where there has been a period of high Realised Volatility, the Investor's exposure to the Reference Asset will be low, regardless of whether the Reference Asset is performing positively or negatively.
- There is no guarantee that the Units will generate returns in excess of any Fees during the Investment Term. Additionally, in the event of an Investor requested Issuer Buy-Back or Early Maturity Event you will not receive a refund of any Fees.
- Investors are subject to counterparty credit risk with respect to the Issuer and the Hedge Counterparty.
- The Units may mature early following an Early Maturity Event, including an Adjustment Event, Market Disruption Event or if the Issuer accepts your request for an Issuer Buy-Back.

Please refer to Section 2 "Risks" of the Sequoia Launch Series Master PDS and Section 2 "Term Sheet" of the Sequoia Launch Series 33 Term Sheet PDS for more information.
