This Term Sheet IM is dated 10 February 2022 and is issued by Sequoia Specialist Investments Pty Ltd (ACN 145 459 936) (“**the Issuer**”) and arranged by Sequoia Asset Management Pty Ltd (ACN 135 907 550, AFSL 341506) (“**the Arranger**”) pursuant to Section 911A(2)(b) of the Corporations Act. Pursuant to Section 911A(2)(b), the Issuer will issue the Units in accordance with the offer made by the Arranger.

This IM has not been lodged, and is not required to be lodged with the Australian Securities and Investments Commission (“**ASIC**”).

## Investments in the Units

This IM (including the Master IM) is an important document which should be read before making a decision to acquire the Units. The information in this IM is general information only and does not take into account an individual’s investment objectives, financial situation or particular needs or circumstances.

Nothing in this IM is a recommendation by the Issuer or its related bodies corporate or by any other person concerning investment in the Units or the Reference Basket or any specific taxation consequences arising from an investment in the Units. Potential investors should also obtain independent financial and taxation advice as to the suitability of this investment to them having regard to their investment objectives, financial situation and particular needs. No cooling off rights apply to investments in the Units.

**Potential Investors should note that the Issuer retains discretion to amend the closing date for the offer for a Series and move the Commencement Date (and all other consequential dates) for a Series, or not to continue with the issue of a Series of Units on the Commencement Date and terminate any Units in that Series already issued, including where there is a significant change in the Issuer’s cost of hedging between the date of this Term Sheet IM and the Commencement Date. In particular, the Issuer will not continue with the issue of a Series of Units if it considers that it and its affiliates have not completed sufficient arrangements for management of their respective obligations in respect of that Series of Units. If a decision is made not to issue a Series of Units or to terminate Units in a Series that have already been issued, the Issuer will return the Prepaid Interest, and any applicable Fees that have been paid upfront to applicants without interest within 10 Business Days of the scheduled Commencement Date.**

## Eligible investors and electronic IM – Wholesale Clients ONLY

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), and may not be offered or sold in the United States or to, or for the benefit of U.S. persons unless the Units are registered under the Securities Act or an exemption from the registration requirements of the Securities Act is available.

# 1. Investment Overview

Sequoia Commodities Series 7 aims to provide an opportunity for wholesale investors to gain exposure to the oil market by offering 100% leveraged exposure to New York Mercantile Exchange (“**NYMEX**”) West Texas Intermediate (“**WTI**”) Crude Oil Futures for a 1 year period. <https://www.cmegroup.com/markets/energy/crude-oil/light-sweet-crude.html>.

The Units will track the **Front Month WTI Crude Oil Futures Contract (CL1)** (“**Reference Asset**”) and are designed to give investors exposure to any positive growth of the Reference Asset over a 1 year Investment Term through the payment of an uncapped Performance Coupon at Maturity.

Any Performance Coupon at Maturity is calculated by reference to any positive growth of the Reference Asset during the Investment Term, adjusted for changes in the AUD/USD exchange rate.

## The Front Month WTI Crude Oil Futures Contract (“CL1”)

Series 7 tracks specifically the Front Month Futures Contract of WTI Crude Oil Futures for the purpose of calculating any Performance Coupon at Maturity. The NYMEX product code for this contract is CL1. It refers to the futures contract with the nearest expiration date of all WTI Crude Oil Futures contracts listed on NYMEX.

You can follow the performance of the Front Month Futures Contract of WTI Crude Oil Futures (CL1) at the following address:

<https://www.bloomberg.com/quote/CL1:COM>

<https://www.marketwatch.com/investing/future/cl.1>

## When Units may be suitable for Investors:

The Sequoia Commodities Series 7 Units have been designed for Investors who:

- Have a very positive view of the Front Month Futures Contract of WTI Crude Oil Futures (CL1) for a 1 year Investment Term;
- Have an intention to hold the Investment until Maturity and are not relying on Units to produce income during the Investment Term;
- Are seeking a leveraged investment that provides a 1 year exposure to the WTI Crude Oil market via the Front Month Futures Contract of WTI Crude Oil Futures (CL1);
- Understand the risks associated with early unwinds (refer **Risks of Early Unwinds before Maturity (i.e. Issuer Buy-Backs)**);
- Are willing to accept that they will not break-even on their Investment unless the Performance Coupon is greater than 12.2% at Maturity or that any amount received upon an Issuer Buy-Back before Maturity is greater than 12.2%;
- Understand that any Performance Coupon payable at Maturity will be increased to the extent the AUD/USD exchange rate depreciates during the Investment Term or alternatively, decreased to the extent the AUD/USD exchange rate increases during the Investment Term;
- Want an investment with a Final Value where losses are limited to the Prepaid Interest, Application Fee and Adviser Fee (if any);
- Understand that leverage amplifies both positive returns and losses and can tolerate the risk associated with leverage;
- **Understand and can tolerate the risk that there is no guarantee of financial return on their investment.** Investors may not recoup all or part of their Prepaid Interest, Application Fee, and Adviser Fee (if any).

## When Units may not suit Investors

An investment in the Units would **not be a suitable** investment for Investors who:

- Do not have a positive view of Front Month Futures Contract of WTI Crude Oil Futures (CL1) over the next 1 year Investment Term;
- Are unwilling to wait for 1 year to receive any possible return on their Investment;
- Are unwilling to commit the Total Investment Amount for the full Investment Term of the Units;
- Are unwilling to pay upfront the Prepaid Interest, Application Fee, and Adviser Fee;
- **Are unwilling to accept the risks associated with early unwinds (see paragraph below);**
- **Are unwilling to take the risk of a 100% loss of their Total Investment Cost plus Adviser Fee (if any).**

This list is not comprehensive and does not take into account a potential Investor’s personal needs and circumstances.

Before investing you should consider carefully the risks that relate to an investment in the Units. Please refer to Section 2 “Risks” in this Termsheet IM and Section 8 “Risks” in the Master IM.

## Risks of Early Unwinds before Maturity (i.e. Issuer Buy-Backs)

There are certain risks associated with Investors requesting an early unwind of their investment in Series 7 before the Maturity Date. As the Issuer uses a derivative to deliver exposure to the Reference Asset, the amount received by the investor upon an early unwind does largely depend upon the underlying derivative value at that time. Importantly, the derivative that the Issuer acquires to hedge Series 7 will itself reference the March 2023 WTI Crude Oil Futures Contract (NYMEX code:CLH3) as this will be the contract acting as the Front Month WTI Futures Contract on the Maturity Date. Therefore, CL1 on the Maturity Date will be determined by referenced to the closing settlement price of CLH3 on the Maturity Date. However, given that the Issuer hedges Series 7 by investing into a derivative which itself tracks the March 2023 WTI Futures Contract, there are certain specific risks pertaining to early unwinds that investors should be aware of:

- the value of the derivative will likely fall as the March 2023 WTI Crude Oil Futures Contract falls which can reduce any unwind value received by an investor upon an Issuer Buy-Back;
- the derivative value could fall, or increase to a much lesser when compared to any rise of the Reference Asset (CL1) during the Investment Term due to various factors including but not limited to changes in volatility, changes in interest rates, changes in the shape of the forward curve for WTI Crude Oil Futures Contracts, lower price sensitivities for CLH3 as compared to CL1, or other market related factors impacting the value of the derivative;
- the derivative value upon an early unwind will reflect any margin earned by the underlying Hedge Provider (i.e. investment bank) and the Issuer at the time the product is issued. This means that the derivative value will have a lower value than it would otherwise have without any such margin being deducted;
- potential illiquidity in relation to the derivative or the underlying March 2023 WTI Crude Oil Futures Contract which the derivative tracks; and
- counterparty risk. Counterparty risk is where the counterparty to the derivative contract entered into by the Issuer cannot meet its obligations under the contract. Any such risk occurring is likely to adversely impact the value of your Units.

Telstra Corporation (TLS.AU).

On Maturity, the Issuer intends to deliver a parcel equal in value to the Final Value per Unit multiplied by the number of Units held by an Investor (“**Delivery Parcel**”) containing ordinary shares in Telstra Corporation (ASX Code: TLS, website: www.telstra.com.au) (“**Delivery Asset**”).

You should be aware that the Issuer can change or substitute the Delivery Asset in certain circumstances, and you should take this into account when considering whether to invest in the Units.

**Agency Sale Option**

Available. Please refer to Clause 4.4 of Section 6 “Terms of the Deferred Purchase Agreement” in the Master IM.

**Key Risks**

Key risks include:

- Your return (including any Performance Coupon) is affected by the performance of the Reference Asset. There is no guarantee that the Reference Asset will perform well.
- There will be no Performance Coupon payable if the performance of the Reference Asset is negative at Maturity and Investors will suffer a 100% loss;
- There is no guarantee that the Units will generate returns in excess of the Prepaid Interest and Fees, during the Investment Term. Additionally, in the event of an Investor requested Issuer Buy-Back or Early Maturity Event, you will not receive a refund of your Prepaid Interest or Fees.
- Gains (and losses) may be magnified by the use of a 100% Loan. However, note that the Loan is a limited recourse Loan, so you can never lose more than your Prepaid Interest Amount and Fees paid at Commencement.
- Investors are subject to counterparty credit risk with respect to the Issuer and the Hedge Counterparty; and
- The Units may mature early following an Early Maturity Event, including an Adjustment Event, Market Disruption Event or if the Issuer accepts your request for an Issuer Buy-Back.

In addition to the above, please refer to Section 2 “Risks” of the Master IM for more information as well as the section entitled “**Risks of Early Unwinds before Maturity (i.e. Issuer Buy-Backs)**” above under Section 1 of this Termsheet IM.

**Fees**

The following Fees are payable in respect of the Units:

**Upfront Adviser Fee (if any):** You may nominate an Upfront Adviser Fee to be paid to your Adviser in the Application Form attached to this Term Sheet IM. The Issuer will deduct any Upfront Adviser Fee from the Total Payment Amount and pay it to your Adviser in accordance with the terms of this IM.

**Application Fee:** The Issuer charges an Application Fee of 1.1% of the Issue Price of each Unit, i.e. \$0.011 per Unit. The Issuer may agree with your Adviser to forgo part or all of the Application Fee at the Issuer’s absolute discretion.

Assuming you nominated an Upfront Adviser Fee of \$1,100, and you applied for 100,000 Units in Series 7, in addition to the Prepaid Interest you would pay fees of:

Application Fee	= 100,000 x \$0.011	= \$1,100
Upfront Adviser Fee		= \$1,100
<b>Total</b>		<b>= \$2,200</b>

<b>Total Investment Cost</b>	Type of Cost	Cost per Unit
	Prepaid Interest	\$0.111
	Application Fee	\$0.011
	Total:	\$0.122

**Derivatives**

The Issuer obtains exposure to the Reference Asset through the use of derivatives rather than a direct investment in the Index.

**Taxation**

Please refer to Section 4 “Taxation” of the Master IM.

**Applications and issue of Units**

Applications may be accepted or rejected at the discretion of the Issuer. Units will be issued within one month upon receipt of application monies from an Investor. The Unit’s economic exposure to the Reference Asset will begin on the Commencement Date. If a Unit is issued prior to the Commencement Date, it will have no economic exposure until the Commencement Date.

The Sequoia Commodities Series 7 Units will only be issued at the discretion of the Issuer, and applications may be accepted or rejected at the discretion of the Issuer. Without limiting its discretion, the Issuer may choose not to proceed with the issue of the Units for a Series and terminate the product for those Units already issued for any reason whatsoever, including (without limitation) if there is a significant change in the Issuer’s cost of hedging between the date of this IM and the Commencement Date. Where the Issuer has not received the Prepaid Interest, Application Fee or Upfront Adviser Fee (if any) in respect of a Unit(s) from the Investor by the Application Payment Date, the Issuer will cancel the Units relating to the unpaid amounts and will arrange for the Investors name to be removed from the register of Unitholders. If a decision is made for any reason not to issue, or not to proceed with the issue of the Units in Series 7, the Issuer will return the Prepaid Interest, Application Fee and Upfront Adviser Fee (if any) to applicants (without interest) within 10 Business Days of the scheduled Commencement Date and any Units already issued will be terminated.

The Units may mature early in the case of an Early Maturity Event or Issuer Buy-Back, and the Maturity Date may be extended in the case of a Market Disruption Event.
